

Did you know that many non-life-threatening illnesses and injuries can be treated outside of the ER with lower copays and shorter wait times?

- ✓ For minor bumps, bruises, scrapes, colds and fevers, make a same-day appointment at your [Physician's Office](#)
- ✓ Can't get an appointment? Head to a [Retail Clinic](#) (like those found in CVS, Walgreens, Walmart)
- ✓ For more serious symptoms, like an animal bite or the need for stitches, visit an [Urgent Care Center](#)

Visit www.provider.bcbs.com or call **888-222-9206** to find a physician or urgent care center near you

You should still go to the ER if you have any signs of a heart attack or stroke, severe chest pain, sudden loss of vision, trauma to the head, partial or total amputation of a limb. And, if you're in doubt about the seriousness of your condition, CALL 911.
